

Applicant's Name: \_\_\_\_\_

Dealership: \_\_\_\_\_

**NOTICE TO VEHICLE CREDIT APPLICANT**

If the dealer obtains and uses a credit score from a credit reporting agency in connection with your application to finance the acquisition of a vehicle, the dealer must disclose the score to you.

The credit score is a computer generated summary calculated by a credit reporting agency at the time the dealer requests the score and is based on information the credit reporting agency has on file. The scores are based on data about your credit history and payment patterns. Credit scores are important because they are used in determining whether to extend credit. The score may also be used to determine the annual percentage rate you may be offered. Credit scores can change over time, depending on your conduct, how your credit history and payment patterns change, and how credit scoring technologies change. Credit scores may also vary from one credit reporting agency to another.

If you have questions about your credit score, contact the credit reporting agency at the address and telephone number provided. The credit reporting agency does not participate in the decision to take any action on your application for credit and is unable to provide you with specific reasons for any decision on the credit application.

If you have questions concerning credit terms relative to your purchase or lease of a vehicle, ask the dealer.

A credit score was obtained from the credit reporting agency or agencies marked below:
